YARROW'S

SMALL STEAMERS & STEAM LAUNCHES,

BUILT OF WOOD, IRON OR STEEL.

Screw Steamers, with speeds ranging up to 25 miles an hour,
Paddle Steamers, with draughts ranging down to 6 inches of water.

MACHINERY CONSTRUCTED FOR BOATS BUILT ABROAD.

YARROW & CO.,

(Late YARROW & HEDLEY,)

Engineers and Shipbuilders, Isle of Dogs, Poplar, London.

ASK FOR

LIEBIG COMPANY'S EXTRACT OF MEAT

Liebig

TRADE MARK.

CAUTION.—Genuine ONLY with fac-simile of **Baron Liebig's Signature, in Blue Ink, across Label.**

*** In use in most households throughout the kingdom.

A slight addition of the Extract gives great strength and flavour to Soups, Made Dishes, and Sauces, and effects great economy.

DIRECTIONS.—BEEF TEA, a most efficient tonic in all cases of weakness and more especially in cases of disordered digestion. Dissolve half a teaspoonful of Extract in a coffee cup or small breakfast cup of boiling water, add plenty of salt. Many persons will like the addition of a small (or even a large) spoonful of sherry, port wine, or a trifle of brandy, also some Worcestershire Sauce. Take a small cup of this Beef Tea several times a day.

ESTABLISHMENT OF THE

FIRST AND ONLY TELEGRAPHIC SHIP SIGNAL STATION

In the BRISTOL CHANNEL on the MUMBLES HEAD.

SWANSEA HARBOUR TRUST.

IMPORTANT TO ALL VESSELS VISITING SOUTH WALES PORTS.

Giving the Captain and Shipowner the choice of Ports, and greater command of the Freight Market.

VESSELS CALLING FOR ORDERS SAVE TIME AND MONEY.

MESSAGES FILED and a LOOK-OUT on duty DAY and NIGHT at the MUMBLES HEAD LIGHTHOUSE, SWANSEA BAY, connected with the General Post-office system of Telegraphs.

Captains can communicate with their Owners and others without lowering a boat.

Shipowners forwarding Messages, or desirous of having their Vessels reported, should wire direct.

TELEGRAPH ADDRESS simply "Swansea Bay Signalling Station."

Swansea is the first Port in the Bristol Channel, 35 miles from Lundy. Vessels can enter the bay and find good and sheltered anchorage under the Mumbles Head at any state of the tide, free of all charges whatever.

The new East Dock doubling the existing dock accommodation and giving 32 feet depth of water at ordinary spring tides, and 24 feet 9 inches ordinary neaps is under contract to be opened for traffic in the autumn.

All further information, either personally or in writing, of the General Superintendent of the Harbour, Docks, Railways, and Estate,

ROBERT CAPPER.

Swansea Harbour, January, 1881.

N.B.—Vessels are discharged and loaded strictly according to stem, in two classes, and do not have to wait turn in the Roadstead for entrance into the Docks.

NOTICE.

Signals—Lighthouse Service.

The Trinity House and Commissioners of Irish Lights have determined to abolish their *private* Codes of Signals, and to adopt the International Code. There are, however, requirements in the service of these Authorities necessitating the use of a *special* Code of Signals, which will consist of either one Cone and two Code flags, or two Cones and one Code flag in a hoist. It will be understood that the special Code referred to is intended *only* for the Ships and Lighthouses in the service of the Lighthouse Authorities.

Board of Trade,
1st December 1876.

E. STANHOPE,
Secretary.

NOTICE.

The International Code of Signals.

The establishment of one uniform system of Signalling at sea has for some time past occupied the attention of the leading Maritime Powers. The Governments of France and Great Britain have, as was done by them in the case of steamers' lights some years ago, brought the subject before the Governments of the principal Maritime Powers, and have recommended the adoption of the *International Code of Signals* as the universal means of communication between the Ships and Signal Stations of all nations.

This Code is used on board Her Majesty's ships,* and has been adopted by all the principal maritime powers for their Imperial as well as for their Mercantile Navies;† viz.:—

England.	‡Italy.
‡France.	‡Austria.
America.	‡Germany.
‡Denmark.	‡Spain.
‡Holland.	‡Portugal.
‡Sweden and Norway.	Brazil.
Russia.	Belgium.
Greece.	

The Code being so universally adopted, and the necessity being apparent that the officers and men of the British Mercantile Marine should be familiar with its use, the Lords Commissioners of the Admiralty have ordered that all men belonging to the Royal Naval Reserve, who act as Masters and Mates of ships, are to be instructed in its use; and the Board of Trade, on the recommendation of the Committee for managing the affairs of Lloyd's, have directed that all Candidates for Masters or Mates Certificates of Competency must in future pass a satisfactory examination in the "International Code of Signals for the use of all Nations."

---

* The Admiralty have informed the Board of Trade that Marryat's Code is no longer supplied to Her Majesty's Ships.

† By a Decree of the Spanish Government, dated 11th November 1870, all Spanish Men of War and Merchant Ships are bound to be provided with the International Code Book and Flags. The Italian Government have intimated to Her Majesty's Government their intention to apply a similar rule to Italian Vessels, and it has been announced that Mr. Secretary Boutwell has recommended the American Congress to pass a Bill to compel Vessels belonging to the United States to use this Code.

‡ Translations of the Code have been made by these Governments.

Digitized by Google

This is practically the *only Code* now used at the Signal Stations on our Coasts, and at the Signal and Semaphore Stations of other countries, and the officers at these stations have *no means of understanding or signalling by any other Code.*

It is, therefore, important that ships should be provided with the means of signalling by this Code, as cases have been reported in which officers at the Signal Stations have hoisted the International Code Signals warning ships of danger, the ships having been afterwards lost from the inability of the masters to read the signals.

Signal Stations.

Signal Stations with which Ships can communicate by the International Code have been already established at:—

Aldborough.
Beachy Head.
Bridlington.
Broadstairs.
Caldy Island (Tenby).
Cardiff (Pier Head).
Deal.
Dover.
Dungeness.
Flamborough Head.
Grimsby.
Holyhead.
Lizard (The).
Penzance.
Prawle Point (near the Start).
Scilly.
St. Catherine's Point (Isle of Wight).
Yarmouth (Isle of Wight).
Yarmouth (Norfolk).

Brow Head
Innishowen Head
Roche's Point (Queenstown).
} Ireland.

Anjer (Straits of Sunda).
Ascension.
Gibraltar.
Malta.
Madeira.
St. Helena.
Ushant.

At these Signal Stations the International Code is the *only* Code recognized, and vessels of any nation may make their names known by means of this Code.

Signal Stations have also been established on the coasts of France and Italy and other Foreign Countries (see list in Signal Book), as well as on the more prominent points of the coasts of the Indian Empire and the colonial dependencies of Great Britain.

The Code List.

This list forms an Appendix to the *International Code of Signals*, and is prepared for the purpose of enabling officers at Signal Stations

Digitized by Google

on shore, and Masters of ships at sea, to signal and report passing ships. It is published annually, and contains to the date of its publication the name and distinguishing signal of every British registered vessel to which a *Code* Signal has been allotted, and also in the Appendix the names of certain Foreign ships having International Code Signals. The price of the Code List (including the Appendix) is 5*s*.

Quarterly Supplements are also issued.

Appendix to Code List.

Masters or Agents of *Foreign* Vessels may have the Names of their Ships and their Ships' International Code Signals inserted in the Appendix to the Code List, on application to the *Shipping Gazette* Office, Talbot Court, Gracechurch Street, London, and on payment of a fee of Five Shillings.

Signals for Ships' Names.

Application for the allotment of a *Code* Signal for the purpose of making a ship's name known at sea should be made, if the ship belongs to the United Kingdom, to the Registrar General of Shipping and Seamen, 82, Basinghall Street, London, E.C., and if she belongs to the Colonies, to the Registrar of Shipping at the port to which the ship belongs. Forms for this purpose can be obtained at any Custom House in the United Kingdom.

As it is important that the signal letters, when appropriated to any vessel, should in all cases be *marked upon the ship's Certificate of Registry*, the Certificate should be forwarded with the application, if possible.
